### **Company overview**

*Patagonia Health Inc. is a healthcare software supplier that has built a cloud and apps-based software solution. The solution includes an integrated, federally-certified, Electronic Health Record (EHR), Practice Management (PM) and Billing software. The company's mission is to solve two major barriers to EHR adoption, usability and cost, and address customers' number one problem: billing. Patagonia Health's one-of-a-kind apps-based system represents a paradigm shift in the EHR software industry, and its highly-intelligent solution uses sophisticated technology that is extremely easy-to-use. Innovative and unique apps provide timely data for organizations to improve workflow, streamline their operations and take their organizations to the next level.*

### **Project Manager:**

We are looking for committed and driven individuals who can contribute to a fast moving company while strengthening their skills and building their resume in latest technologies. The environment is collaborative and highly dynamic.

**Job Location:** Cary, NC

### **Full Time position**

**Description:** We are looking for project managers with experience in healthcare industry, preferably working with Electronic Health Record, Practice Management and Billing solutions. In this role you will be leading projects that encompass all phases of product implementation, training and account management. This includes project kickoff, scheduling, coordination of resources, change management, and working directly with customers and third-party vendors for status updates and account management. We are looking for energetic individuals with a positive attitude who can collaborate with customers, take ownership, and deliver results.

### **Project Manager Responsibilities**

- Successfully manage relationships as liaison with client and all stakeholders
- Coordinate internal resources and third-party vendors (when applicable) for the seamless execution of projects
- Ensure that all projects are delivered on-time, within scope and within all defined contractual terms
- Develop detailed project plan and monitor and track progress.
- Ensure resource availability and allocation
- Manage changes to the project scope, milestones, timeline and provide updates
- Report and escalate to management as appropriate
- Establish and maintain relationships with customers and third-party vendors
- Create and maintain detailed project documentation

**Skills and Qualifications:**

Must have Bachelor's degree, preferably in the fields of healthcare, or computer science  
Must have 3-5 years of experience as project manager or equivalent role with EHR or practice management products  
Must have experience leading IT, clinical IT, or Healthcare IT projects  
Must have excellent client-facing and internal communication skills  
Must have excellent written and verbal communication skills  
Strong preference for understanding of clinical workflow in ambulatory or inpatient settings  
Strong preference for MS Project expertise  
Strong preference for PMP Certification

**Compensation:** Commensurate with knowledge and experience

**Contact:** Send resume or enquiries to [careers@patagoniahealth.com](mailto:careers@patagoniahealth.com)
