

## Goal Oriented, Client Focused HIV Case Management App

By consulting with HIV Clinics, Patagonia Health has developed an HIV Case Management App to better support the needs of clinics who provide HIV Case Management services. Patagonia Health's built in templates follow the industry standard, cost-effective, client-focused and goal-oriented strategies to improve patient health status and level of functioning. Case management is considered to be a core medical service for purposes of Ryan White funding requirements for medical care.

- ▲ Customizable workflow and clinic templates to meet your state requirements and clinic needs
- ▲ All core case management components, including STD/HIV Testing, Assessment, Care Planning, Treatment Adherence Notes, and Intervention and Recovery Plans
- ▲ Digital signature captures for required supervisor signoff on Initial Comprehensive Assessment, Reassessment, Service Plans and Case Closure Summary
- ▲ Includes HIV, primary care, and behavioral health functionality
- ▲ Document general referrals and information in one location
- ▲ Manage clinician case load for limit requirements
- ▲ Promote continuity of care by coordinating service delivery arrangements
- ▲ Federally certified for Meaningful Use to capture strict privacy and security

### Key Benefits

- ✓ Integrated case management tools and plans
- ✓ Promote adherence to state requirements
- ✓ Standard HIV/STD templates and forms included
- ✓ Connect to 5000+ payers
- ✓ Real-time insurance eligibility checks and sliding fee scale
- ✓ Fully integrated billing system - no dual data entry
- ✓ Award-winning service and support specialists
