### **Company overview**

*Patagonia Health Inc. is a healthcare software supplier that has built a cloud and apps-based software solution. The solution includes an integrated, federally-certified, Electronic Health Record (EHR), Practice Management (PM) and Billing software. The company's mission is to solve two major barriers to EHR adoption, usability and cost, and address customers' number one problem: billing. Patagonia Health's one-of-a-kind apps-based system represents a paradigm shift in the EHR software industry, and its highly-intelligent solution uses sophisticated technology that is extremely easy-to-use. Innovative and unique apps provide timely data for organizations to improve workflow, streamline their operations and take their organizations to the next level.*

### **Project Manager:**

We are looking for committed and driven individuals who can contribute to a fast-moving company while strengthening their skills and building their resume in latest technologies. The environment is collaborative and highly dynamic.

**Job Location:** Cary, NC

### **Full Time position**

**Description:** We are looking for a project manager with extensive experience in healthcare industry, working with Electronic Health Record, Practice Management and Billing solutions in the public health environment. In this role you will be leading projects that encompass all phases of project management and rollout; requirements gathering, implementation planning, and training & delivery. This includes project kickoff, scheduling, coordination of resources, change management, and working directly with customers and third-party vendors for status updates and account management for all implementation services. We are looking for energetic individuals with a positive attitude who can collaborate with customers, take ownership, and deliver results.

### **Project Manager Responsibilities**

- Successfully manage relationships as liaison with client and all stakeholders
- Coordinate internal resources and third-party vendors (when applicable) for the seamless execution of projects
- Ensure that all projects are delivered on-time, within scope and within all defined contractual terms
- Collect and analyze project specific requirements
- Develop detailed project plan and monitor and track progress to ensure timely payments
- Ensure resource availability and allocation
- Manage changes to the project scope, milestones, timeline and provide updates
- Collaborate with development team to prioritize and deliver customer specific features
- Report and escalate to management as appropriate
- Establish and maintain relationships with customers, stakeholders, and third-party vendors
- Create and maintain detailed project documentation

**Skills and Qualifications:**

- Bachelor's degree, preferably in the fields of healthcare, or computer science
- 3-5 years of experience as project manager, or equivalent role with EHR or Practice Management products
- Clinical and/or healthcare industry experience (from ambulatory setting or from EHR/Healthcare IT projects)
- Experience leading IT, clinical IT, or Healthcare IT projects
- Understanding of clinical workflow
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Excellent analytical thinking and problem-solving skills
- Preference for experience using MS Project
- PMP Certification, or equivalent experience

**Compensation:** Commensurate with knowledge and experience

**Contact:** Send resume or enquiries to [don@patagoniahealth.com](mailto:don@patagoniahealth.com)
