

ELECTRONIC HEALTH RECORD

Integrated Practice Management, EHR & Billing Software for Public Health

Patagonia Health's EHR, Practice Management, and Billing software is designed to improve departmental workflow using apps and cloud-based technology. Patagonia Health collaborates with our customers to develop advanced apps to add specific functionality needed by public health departments.

Not only do we support public health in their needs today, we also actively develop our solution for the future of Public Health 3.0. Our services support whole-person care with the technology needed to assist in efforts like Healthy People 2030.

A few of our apps and functionalities include:

- ✓ Immunization, Immunization Inventory, and Mass Vaccination (supportive of programs like VFC and 317 Immunization)
- ✓ Contactless Patient Experience App (Including the Patient Portal, MyHealth)
- ✓ Maternal and Child Health and Family Planning (including reports for Title X and V, FPAR, and FPAR 2.0)
- ✓ Tuberculosis testing and treatment
- ✓ Pharmacy (with inventory and reporting that support 340B programs)
- ✓ HIV Case management
- ✓ Telehealth App with ability to view patient clinical charts while face-to-face with patient
- ✓ Management Dashboard App (analytics for your Clinical or Health Director)
- ✓ Time and Effort Tracking (for program/ insurance reporting)
- ✓ Ability to have multiple staff in patient record simultaneously

Key Benefits

- Reporting functionalities to meet county, state, federal, and grant funding requirements
- Reimbursement tools to decrease denials and dependency on outside funds
- Master patient indexing for an automatic, seamless transfer of patient data
- SaaS-based solution with low IT footprint
- Unlimited customer support
- HIPAA and HITRUST Certified
- ONC Promoting Interoperability Certified
- 7x Stevie Award Winner for Customer Service Success - Technology category
